KIEFEL TRAINING

THE POWER OF KNOWLEDGE

LEARNING **BY DOING**

KIEFEL – the key to your success

KIEFEL machines set worldwide standards throughout the sector. The key to achieving top quality continues to be man and machine – in terms of operation, maintenance and process control.

Ensure that you master our machine technology – because training is always an investment in the future: This is good for your organisation and good for you. Our optimised hands-on training programmes are designed to let you get the most out of your KIEFEL machine, while helping to ensure that it runs smoothly and trouble-free.

KIEFEL
TRAINING

THEORY AND PRACTICE

Our team of professional trainers, with their long years of practical teaching experience and extensive know-how, will show you how to use your machine, while imparting their knowledge of working with KIEFEL machines.

WE GET YOU FIGHTING FIT!

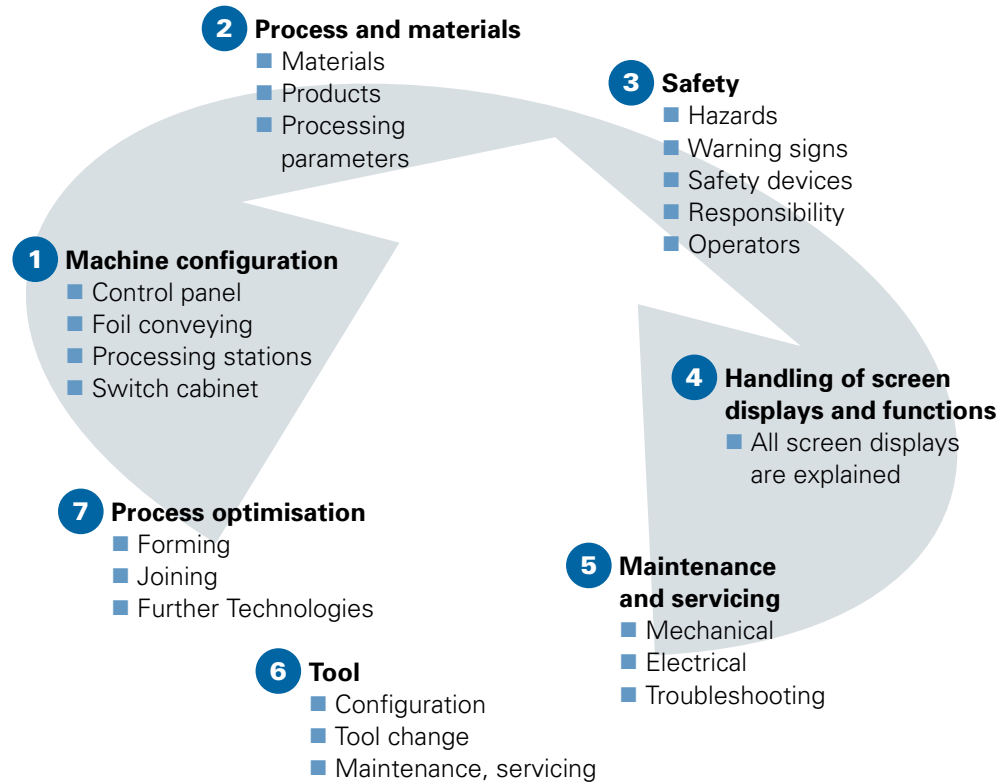

A NICE PIECE OF WORK

KIEFEL STANDS FOR FLEXIBILITY

With individual training programmes customised to match your machine configuration and personal level of knowledge – from absolute beginner right up to expert user.

The objective is maximum independence and own responsibility. Tailored to suit any specific process requirement, including for older machines.

Worldwide, including on your own site.

KIEFEL
TRAINING

RELIABLE, PROFESSIONAL, EXPERIENCED

WE TIE UP **THE LOOSE ENDS**

We will be pleased to design a training course – and deliver it – on your behalf.
Either using our facilities or on your premises – you decide.

The KIEFEL Training Team
looks forward to hearing
