

KIEFEL with own branch in Brazil

As of early 2009, the Freilassing (Germany)-based company KIEFEL GMBH is represented by its own Brazilian subsidiary, KIEFEL do Brasil.

With a representative presence in Sao Paulo as well, KIEFEL intends to concentrate its efforts on its main markets. Kiefel sees potential in the Brazilian packaging industry, particularly with regard to the successful automatic pressure forming machines of the Speedformer series, and also the cup forming machines of the Thermorunner range.

For manufacturers of bags for medical uses, KIEFEL offers fully-automatic seam-welding units based on HF or thermal contact technology, along with high-performance filling systems.

Further target groups include the automotive industry and manufacturers of refrigerators.

The local branch is to be managed by Patrick Claassens, who has been living in Brazil for many years. He also has long experience of working in the sectors relevant to KIEFEL's plastic-processing technology.

KIEFEL is a world leader when it comes to the design and manufacture of machines used to process plastic foil materials. The company offers core expertise in the fields of moulding and joining technology. As a supplier to reputable manufacturers in various sectors, Kiefel GmbH services customers in the automotive, medical technology, refrigeration and packaging

The head office of KIEFEL GmbH is in Freilassing/Germany. The company also runs its own network of sales and service centres in the United States, France, the Netherlands, Russia, the Czech Republic, China and Brazil, and is represented by sales partners in more than 60 countries worldwide.

Kiefel GmbH is a member of the German Brückner Group, a worldwide leading supplier of plastics machinery with approx. 1,200 employees. Brückner is the world market leader in the field of film stretching lines and also provides cast film and sheet extrusion lines as well as - via Kiefel Extrusion GmbH - blown film extrusion systems and film winders.
