KIEFEL GmbH enters into cooperation agreement with Rudholzer GmbH

The southern Germany-based manufacturer of machines and equipment for the processing of plastic materials is now cooperating with Rudholzer GmbH, a supplier of mechanical engineering for special purposes.

The respective management teams at KIEFEL GmbH, of Freilassing, and Rudholzer GmbH, of Teisendorf (also in southern Germany), have set the points for a shared future for both companies. KIEFEL will now be working with Rudholzer GmbH, manufacturer of special machines designed for the processing of plastics, and also in the field of semiconductor technology.

Both organisations are active in the packaging sector and automotive industry. While KIEFEL is specialised in the area of thermoforming and welding machines with series-production-type characteristics, Rudholzer GmbH designs and constructs special machines for use in thermoforming and welding applications.

The partners in this cooperation agreement intend to make efficient use of both organisations' respective strengths.

KIEFEL is a world leader when it comes to the design and manufacture of machines used to process plastic foil materials. The company offers core expertise in the fields of moulding and joining technology. As a supplier to reputable manufacturers in various sectors, Kiefel GmbH services customers in the automotive, medical technology, refrigeration and packaging industries.

The head office of KIEFEL GmbH is in Freilassing/Germany. The company also runs its own network of sales and service centres in the United States, France, the Netherlands, Russia, China and Brazil, and is represented by sales partners in more than 60 countries worldwide.

Kiefel GmbH is a member of the German Brückner Group, a worldwide leading supplier of plastics machinery with some 1,000 employees. Brückner is the world market leader in the field of film stretching lines and also provides equipment for the manufacture of cast film and sheet as well as service & upgrading products.
